

Our hospital and our community are seeking to build a modern hospital to replace the outdated United Regional Medical Center. A new hospital now will bring a birthing and Intensive Care Unit to Manchester in a state-of-the-art facility.

To complete this process, we must obtain a Certificate of Need (CON) from the State of Tennessee Health Services Development Agency. Manchester needs and deserves a NEW HOSPITAL NOW and we need your support to make it happen!

We need your active support for a NEW HOSPITAL NOW, here's why:

- Manchester is a growing community that saw 13 percent growth in just one year! This new facility is essential to the future health and safety our citizens.
- A new hospital now will mean MANCHESTER BABIES will be BORN IN MANCHESTER!
- A new hospital now will bring a modern Intensive Care Unit and more specialty care to our community, allowing us to stay in Manchester during times of critical need.
- The current 54-year-old hospital lacks private rooms and requires patients to use communal bathrooms.
- A new hospital now will create new jobs for Manchester, both in the hospital and out in the community. A quality healthcare delivery system brings business and opportunity to us!

Ways to show your support:

1. Contact the agency to show your support for Case #CN0707-060

Send your letters to:

Melanie M. Hill
Executive Director
Tennessee Health Services Development Agency
500 Deaderick Street, Suite 850
Nashville, TN 37243

Send your faxes to: 615-741-9884

Or send your email to: melanie.hill@state.tn.us

2. Sign the petition in support of a NEW HOSPITAL NOW! Stop by the hospital or visit www.urmchealthcare.net.
3. Put up yard signs. Wear buttons. Show your neighbors and friends your support for a new hospital for Manchester.
4. Tell your friends and neighbors to support a NEW HOSPITAL NOW!

*For more information, to receive a yard sign or sign our petition,
call United Regional Medical Center at 728-3586 or visit us at www.urmchealthcare.com*
